## *Sherwin Williams Exterior Home Colors*

---

To those homeowners who have done or plan to do outside painting of your homes:

The Duran paint (originally used on most of our homes) and the custom paint formulations that were used are no longer available.

However, if you have Duran paint left over, there is an option to have those colors matched. Sherwin & Williams have taken over Duran and currently has stock colors that have been matched to our original colors. Their stock colors will always be available since they are considered “stock”. This will take the guess work out of choosing the correct color and will maintain the original look of the Villas.

We are including a list of all the house numbers along with the corresponding Sherwin & Williams stock paint codes to aid everyone in their painting. And if you look around the neighborhood, you will notice there is a great need to spruce up our outside curb appeal. Many of you have been asking for help in this area. See below to locate your house number and paint colors.

#407 LaCoe

#409 Lorditch

#416 Lute

#414 Sterling

#7660 Davidson

#7662 Sniegocki

- Urban Jungle (SW9117) trim, lamp post, mailbox post
