

MEMORANDUM OF UNDERSTANDING – 2 (ADDENDUM)

STORM DOORS

To be added to Article XVI, Section 1, Part 4:

Home owners may upon request and at their own expense install a storm door on their residence. These doors must meet the following conditions to insure the continued architectural style and control within our community.

- (1) The door must have a full, clear glass of 36 inch width, with no borders or other enhancements. Example would be the Pella Select Series. Other manufacturers provide a similar product.
- (2) The door must be painted to match the existing front door or the existing door frame color, either Sandbar (SW7547) or Urban Jungle (SW9117), depending on the resident's current door frame color. Hardware will be antique brass. No kick plates will be permitted.

This is a change (dated 4/1/20) to the original Storm Door Memorandum of Understanding.
